SUSTAINABLE DEVELOPMENT

Sustainable development is a crucial component of our daily operations at **Braves World**. We recognize the obstacles and difficulties that stand in the way of accomplishing our mission and sustainability goals. The largest obstacle, though, is figuring out how to make things better while still having a strategy that meets the demands of the market today. We understand that a company can only grow sustainably if compliance and corporate social responsibility are integrated into its operations and mission.

CORPORATE ETHICS

We are dedicated to advancing moral, just trade policies that guarantee employees receive respect, that the workplace satisfies health and safety regulations, that fundamental human rights are upheld, and that they have a right to a respectable quality of living.

In accordance with the Supplier Ethical Data Exchange code of conduct, we work to establish solid alliances with factories that have an entirely open policy permitting unrestricted access for an audit and evaluation of their facilities.
